

## IN THE DRAWING FIGURES

Please replace amended FIG. 3, previously submitted with a header labeled as a "Replacement Sheet", and filed with the Response to First Office Action, with the original FIG. 3 filed with the present Divisional Patent Application.

Please also add drawing figures 12 and 13, attached, thereto, each with a header labeled as a "New Sheet". There is no new subject matter in the aforementioned New Sheets of drawing figures, and the retractable stop (21) shown in FIG. 12 is derived from FIG. 56 of the original parent patent application and the stops (21) shown in FIGS. 3, 12, 17, 36, 42 of the original parent patent application, while the retractable stop (21) shown in FIG. 13 is derived from FIG. 55 of the original parent patent application and the stops (21) shown in FIGS. 16, 42, and 36 of the original parent patent application. Figures 12 and 13 are added to comply with the Patent Examiner's previous request in the First Office Action and comments on page 2, item 2 of the Final Office Action, for drawing figures showing the claimed retractable stop (21), cited in allowed claim 3. A description of these two (2) new drawing figures is added to the specification by the amendment below.

The Applicant respectfully believes these amendments to the drawing figures should resolve the drawing figure issues in the present Divisional Patent Application and should place this Patent Application into allowable form.
